DEDICATED AND EXPERIENCED TEAM

The Scarab Team of experienced litigation support professionals will create custom designed case management proposals. We do this by utilizing our case management protocols that have been proven effective with some of the most complex litigation in the industry. Scarab's team is highly-responsive and committed to staying on the leading-edge of deposition technologies, allowing us to provide superior scheduling and technology services for your court reporting and deposition discovery requirements.

OTHER SERVICES FROM SCARAB CONSULTING

E-DISCOVERY SERVICES

Scarab Consulting provides technology driven solutions for litigation and e-discovery, empowering corporations and law firms to succeed in today's competitive marketplace. From the onset of litigation all the way through to trial presentation and support, we help increase efficiency and reduce costs. Scarab Consulting helps carry out a defensible customized workflow for compliance by recommending the collection, processing, and review strategies that provide the most relevant data so that you can respond efficiently and accurately. Scarab partners with the leaders in review technologies that have been fully vetted through our Technology Group, so that we can provide the best solutions with proven technologies.

In addition, Scarab Consulting has the experience to handle all of your paper document needs as well, with full service document scanning and coding, allowing all documents to be fully searchable. Scarab will integrate the scanned and coded documents with the electronic data in order to provide a seamless integration of both paper and electronic data.

CONSULTING SERVICES

Scarab's consulting practice focuses on providing the knowledge and technology needed to effectively manage the risks and costs of electronically stored information (ESI), whether it is before or after litigation takes place. Uniquely designed consulting packages offer fixed-prices and standard products, so there's no guess work in what it will cost or what you receive.

Scarab's Proactive Packages enable organizations to prepare for litigation and the requirements of FRCP before litigation occurs, while Scarab's Reactive Packages help organizations better control the inherent costs and risks by better managing the discovery process. The full suite of uniquely designed, fixed-price consulting packages for all phases of litigation including Early Case Assessment, Discovery Dispute Support, Litigation Response Plan Development & Standardization, and Discovery Management, as well as proactive solutions including Enterprise Analysis and Data Mapping, Social Media Policy Planning, Legacy ESI Evaluation and Risk Analysis, and ESI Preservation Risk Analysis.
